

**Help Them Learn\*** : This film which runs for a duration of about 30 minutes contains information on how to help children learn new skills, maintain them and also use it in various situations (acquisition - maintenance - generalization) starting with early childhood the various situations in which a person learns skills are shown in the film and specific focus is given at transfer from school to home and community situation. The film also focuses on how to enhance creativity, how to break activities in to smaller steps for ease of learning and how to provide children opportunities to learn from natural environments. The four principles in instruction namely (a) known principles to unknown, (b) simple to complex (c) Easy to difficult and (d) concrete to abstract are provided with appropriate examples in the film. This film is recommended as an audio-visual aid for Master trainers to use in teaching theory and practical's to pre-service students (DSE (MR), B.Ed. Special Education (MR), Diploma in Early Childhood Special Education (ECSE), Bachelor of Rehabilitation Sciences (MR) and to participants attending in service and short term training programmes.

**Make it Easy\*** : This film is for a duration of 30 minutes where it highlights sequencing of activities for easy to difficult how to identify low frequency occurrence (within the daily routine) which can be harmful to the child such as slipping and falling in the bathroom for instance - how to prevent such occurrences right in the beginning while making a task analysis for teaching the child and such other practical problems have been visualized and solutions are suggested in the film. This would enable the teacher to make the teaching easy for herself and easy for the child to learn. The film also provides adaptations of certain gadgets or clothing so that it can be used without difficulty by a person with mental retardation thus leading towards independent living skills. Examples have been taken from various domains include domestic, vocational and functional academics. This film is a good support as an audio-visual material for Master trainers to explain theoretical aspects of teaching skills to children with mental retardation, to students attending pre-service (DSE (MR)), B.Ed. Special Education (MR), Diploma in Early Childhood Special Education (ECSE), Bachelors in Rehabilitation Sciences (MR) and in-service and short term training programmes. Families of children with mental retardation can also use these films in teaching different skills to children with mental retardation
